

MiFuture PhD Students Win Second Place in Nokia-Elisa-Microsoft Challenge with 6G Innovations

Two of our MiFuture PhD students, DC6/Ertug Pihtili and DC9/Fatih Ayten secured second place, together with their team of four students, in a Nokia-Elisa-Microsoft student challenge organized at Tampere University premises on 27.11.2024. Their presentation focused on future factories, where they proposed innovative solutions leveraging 6G, ISAC, and Holographic Communication technologies.
